Sir:

This communication is responsive to the Office Action of February
13, 2006.

In the Office Action the Examiner indicated that the present invention contained the claims related to different inventions, namely to a method of correcting pathological immune reactions, and to a medication for correction of pathological immune reactions.

The Examiner required to elect a single invention for further prosecution.

In connection with the Examiner's requirement, applicant elected for further prosecution the invention related to a medicament for correction of pathological immune reactions.

Claims 3-5 are readable on the elected invention.

Consideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should

the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-243-3818).

Respectfully submitted,

Ilya Zborovsky
Agent for Applicant
